Cindy

data coming in from comware → is one of 8 but not one
only (result of H2O2) we're providing water to
at screening level for arsenate
& for HPC, no coliform hits

Pace - all non-detects for glycols
→ is a lab used by Cabot

No results from Test America or Bio-Tech yet

(3)

not enough info for thorough QA review of Cabot data

MICK RB

sent Cabot fit fit response to Bethesda

more request for camera filming
limited to saying:

"working together to better understand the situation"

Broll → Bleg'd footage

feel reporters they should talk /refor any reporters to press office
"are on our time table"

Karen

conflicts on Cabot drilling locations

- off by 20'; I disagree w/ it vert or horiz.
- blue dots are vert wells; orange streaks are horiz.

Biel Argote rec info from Paul Zelinski (a Water American)

PR person

- believes Cabot's claims are wrong
